

SAFETY PARAMETERS

Instructions: Use pictures to teach your child the safe boundaries around your home. Begin by teaching stop and the sign picture by using a boundary that is already defined, such as a door. Once it is taught, move the sign to different places around the home to reinforce understanding.

You can also use pictures to teach wait, delay, and time boundaries.

EXAMPLE:

Put a STOP sign to mark the end of the driveway or yard boundaries.

EXAMPLE:

Put a NO sign on the TV or computer when it is not time for those activities.
